

Special Issue

Sensors, Devices and Advanced Applications for Virtual Reality – Based Patient Rehabilitation

Message from the Guest Editors

We are currently running a Special Issue titled “Sensors, Devices, and Advanced Applications for Virtual Reality-Based Patient Rehabilitation”, on the open access journal *Sensors* (IF 3.275, ISSN 1424-8220). The submission deadline is 31 August 2021, and papers may be submitted immediately or at any point until the deadline, as papers will be published on an ongoing basis. However, it is still necessary to test new approaches and conduct many more experiments that provide clearer evidence to corroborate the results obtained to date. This is why the objective of the current Special Issue is to gather outstanding studies dealing with the integration of sensory technology in rehabilitation processes to make them much more effective. Therefore, we encourage authors from academia and industry to submit both original research and review articles in the fields of patient rehabilitation using the most cutting-edge technologies.

Guest Editors

Dr. Guillermo Palacios-Navarro

Department of Electronic Engineering and Communications, University of Zaragoza, 44003 Teruel, Spain

Dr. Iván García-Magariño

Department of Computer Science and Engineering of Systems, University of Zaragoza, 50001 Teruel, Spain

Deadline for manuscript submissions

closed (30 April 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
