

Special Issue

Smart Electrochemical Screen-Printed Platforms

Message from the Guest Editors

This Special Issue is intended to provide the most recent research results and emerging concepts in the challenging world of electrochemical (bio)sensors involving screen-printed technologies and portable devices. In essence, this Special Issue will keep the fundamentals of screen-printed electrodes in (bio)sensing, but it will also introduce cutting-edge topics such as wireless electrochemical (bio)sensors, as well as their wide number of applications. Therefore, topics of interest are: Electrochemical sensors and biosensors applications, screen-printed electrodes, wireless electronic (bio)sensors, point-of-care diagnostic devices, combination of mobile communications and electrochemical (bio)sensors, stability and selectivity in complex media, long-term stability without regular maintenance, and reduction of power consumption. New perspectives and challenges for future screen-printed electrodes can also be discussed. Research papers, short communications, and reviews are all welcome.

Guest Editors

Prof. Dr. Edelmira Valero

Department of Physical Chemistry, Higher Technical School of Industrial Engineering, University of Castilla-La Mancha, Campus Universitario s/n, 02071 Albacete, Spain

Prof. Dr. Jesús Iniesta

Department of Physical Chemistry and Institute of Electrochemistry, University of Alicante, 03690 San Vicente del Raspeig, Spain

Deadline for manuscript submissions

closed (31 December 2019)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
