

## Special Issue

# Sensors for Hazardous Material Detection

### Message from the Guest Editor

This Special Issue is dedicated to highlighting emerging sensor technologies and their applications to hazardous materials, and aims to present the latest technological and methodological developments in this interdisciplinary field. Special emphasis will be placed on emerging applications for the spectroscopic monitoring, live cell-based imaging, and theoretical calculation approaches of hazardous materials. Full papers, communications, and reviews are welcome. Topics include, but are not limited to, the following:

- Spectroscopic (infrared, Raman, X-ray, magnetic resonance) monitoring of hazardous species;
- Surface-enhanced spectroscopic (e.g., SERS, SERRS, SEIRA, plasmon) sensors of hazardous materials;
- Monitoring of environmentally hazardous materials (e.g., toxic gas, pollutants, fine dust particles, heavy metals);
- Detection of biohazards (e.g., food contaminants, mycotoxins, pathogens);
- Spectroscopic detection and toxicological monitoring of living cells (e.g., bacteria, cancer cells, blood cells);

---

### Guest Editor

Prof. Dr. Sang-Woo Joo  
Soongsil University

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
