

Special Issue

Advanced-Sensors-Based Emotion Sensing and Recognition

Message from the Guest Editor

Recently, emotion sensing and recognition has become one of the most popular topics in AI research, and many approaches to emotion recognition using various sensors have been widely explored and researched.

Advanced sensors can include cameras, smart phones, depth sensors, biometric sensors, wearable sensors, EEG/ECG/EMG sensors and many more. This Special Issue aims to collect in-depth research papers focused on emotion sensing and recognition that explore various advanced sensors, data modalities, their fusion, and classification. Topics and keywords include but are not limited to:

- Emotion recognition technologies;
- Emotion sensing technologies;
- Sensors-based emotion recognition/sensing;
- Artificial intelligence for emotion recognition/sensing;
- Sensor fusion for emotion recognition/sensing;
- Affective computing;
- Sensory data processing;
- Human-computer interaction

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
