

Special Issue

Sensor Networks Security and Applications

Message from the Guest Editors

This special issue seeks contributions focused on improving the security of sensor networks for the sake of enabling the development of trustworthy data-driven services and applications. Identity management and access control in sensor networks

Trust management in sensor networks

Lightweight cryptography for sensor networks

Risk management in sensors networks

Intrusion detection systems for sensor networks

Privacy-preserving data analytics

Blockchain-based approaches to improve sensor networks security

Network wide security and vulnerability assessment

Application of software-defined networks and network functions virtualization in sensor networks

Evolution of sensor networks toward 5G-enabled IoT systems

Data-centric security for sensor networks

Application of machine learning techniques for intelligent security in sensor networks

Federated learning in sensor networks

Secure orchestration of sensor networks

Security in low-power wide-area networks

Efficient and scalable security for sensor networks

Standardization activities for secure sensor networks

Enforcement of data protection regulations based on secure sensor networks

Innovative use cases and scenarios based on sensor networks

Guest Editors

Dr. José L. Hernández Ramos

Dr. Georgios Kambourakis

Prof. Dr. Erol Gelenbe

Dr. Gianmarco Baldini

Deadline for manuscript submissions

closed (30 November 2021)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
