

Special Issue

State-of-the-Art Sensors Technology in Romania 2020

Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of state-of-the-art sensors science and technology in Romania. The theme of the Special Issue is “From Sensors to IoT and the Digital Revolution”, as it is intended to underscore the importance of IoT technologies in bringing about the digital revolution and making it a reality. Potential topics include but are not limited to:

- Physical, chemical, and biological sensors and microsystems;
- Sensors materials and technology;
- Theory, modeling, design, and simulation;
- Sensor electronics and signal processing;
- Wireless sensor networks;
- Sensor systems and applications;
- Actuators and micromachines;
- Packaging and assembly technology;
- Industrial sensors and IoT protocols;
- Advanced communications and connectivity, and 5G technologies;
- Sensors and the technology advances brought by artificial intelligence;
- Cybersecurity, data security, and privacy technologies for sensory data;
- Data and the Internet of Things—volume, velocity, and variability;
- From sensors and sensor systems.

Guest Editors

Prof. Dr. Ciprian Dobre

Computer Science, University Politehnica of Bucharest, 060042 Bucharest, Romania

Prof. Dr. Octavian Fratu

Department of Telecommunications, University Politehnica of Bucharest, 060042 Bucharest, Romania

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
