

Special Issue

Smart Sensing Systems: Algorithms and Applications— Selected Papers from Signal Processing Symposium 2021 (SPSympo-2021)

Message from the Guest Editors

In recent years, developments in smart sensing systems incorporating technology from different fields have intensified. This Special Issue is devoted to intelligent sensing systems that include Information and Communications Technologies (ICT) for signal and image acquisition, transmission, processing, and analysis for a broad range of applications, including remote sensing systems (radars, sonars, imaging, sensor networks), IoT, telemedicine, medical diagnosis, treatment and rehabilitation, robotics, human–system interaction, environment monitoring, and space technologies, which are the main topics of the Signal Processing Symposium (SPSympo) to be held on 21–23 September 2021 in Łódź, Poland. Participants of the conference are invited to submit the extended version of their paper published in the conference proceedings. However, the Special Issue is not limited to conference participants only. Submissions from all researchers working in the field shall also be welcome.

Guest Editors

Prof. Dr. Piotr Samczynski

Politechnika Warszawska, Warsaw University of Technology, 00-661
Warszawa, Poland

Prof. Dr. Pawel Strumillo

Institute of Electronics, Lodz University of Technology, 90-924 Lodz,
Poland

Deadline for manuscript submissions

closed (31 May 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
