

## Special Issue

# Security, Privacy, and Trust Management in IoT

### Message from the Guest Editors

This Special Issue is dedicated to security, privacy and trust management issues in the Internet of Things (IoT). We are particularly interested to cover the important issue of the convergence among IoT, software agents, and edge computing to introduce in IoT systems social features, exploiting algorithms that combine reliability and reputation information collected by agents at the edge with security and privacy mechanisms. We also solicit the submission of papers dealing with experimental campaigns by means of simulated frameworks, which allow researchers to evaluate strategies to improve the security and privacy of the IoT environment, as well as to improve the capability to prevent and discourage misleading behaviors.

---

### Guest Editors

Prof. Dr. Giuseppe Maria Luigi Sarnè

Prof. Dr. Jianhua Ma

Prof. Dr. Domenico Rosaci

Prof. Dr. Gautam Srivastava

---

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
