

Special Issue

Sensing Technology in Virtual Reality

Message from the Guest Editors

This Special Issue aims to display innovative work exploring the potential of sensing technology for virtual reality applications. The topics of interest include, but are not limited to, the following:

- Innovative (immersive) virtual reality-based applications using novel sensing technologies (e.g., full-body suits, infrared trackers, inertial measurement units, olfactory interfaces and smell dispensers, data gloves, etc.);
- Methods for motion capture, e.g., reconstruction of full-body avatars;
- Methods for motion recognition, e.g., recognition and assessment of physical activities with haptic feedback;
- Systematic reviews, meta-analyses, and evaluation studies or pilot trials in related applications, e.g., clinical trials in health-related applications or VR-based simulation and training for forces, such as fireworkers or policemen.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
