

Special Issue

Sensors Technology and Sensing for Postharvest Quality Management in Agri-Food Chains

Message from the Guest Editors

This Special Issue invites the submission of both review and original research articles related to sensors technology and sensing in the post-harvest phase of agri-food chains. This issue is open to contributions covering all aspects from both theoretical and practical points of view (signal acquisition and processing, data mining and fusion from sensors, together with applications in the decision-making process and quality monitoring) for postharvest quality management of agricultural products. It is focused on horticultural products (fruits, vegetables, and ornamentals) and live animal transportation, given their high value and high possibility of postharvest loss/death. However, contributions dealing with other agricultural products are also acceptable if they fit within the primary scope of the Special Issue.

Guest Editors

Prof. Dr. Tomislav Jemrić

Division of Horticulture and Landscape Architecture, Department of Pomology, Faculty of Agriculture, University of Zagreb, Svetošimunska cesta 25, 10000 Zagreb, Croatia

Prof. Dr. Xiaoshuan Zhang

Beijing Laboratory of Food Quality and Safety, Department of Mechatronics at the College of Engineering, China Agricultural University (East Campus), Beijing 100083, China

Deadline for manuscript submissions

closed (5 July 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
