

Special Issue

Systems, Applications and Services for Smart Cities

Message from the Guest Editors

Over the last few years, interdisciplinary information and communications technologies (ICT) are increasingly being used to build smart and large-scale systems. This Special Issue will address standards, technologies, systems, research, implementation, deployment, applications, benchmarking, and policy. It will also cover various aspects of smart cities, such as smart transport, energy, homes, living, emergency security services, emergency protocols, quality of environment, smart health as telemedicine or bioengineering applications, artificial intelligence, software and requirements engineering, human-computer interaction, individual methods, techniques in knowledge acquisition and representation, and the application, evaluation, and construction of systems. Topics of interest include but are not limited to the following:

- Internet of Things
- real-time interventions
- autonomous systems
- remote monitoring
- context-aware inference models
- security and defence
- behaviour monitoring
- predictive models
- personalised health

Guest Editors

Prof. Dr. José Luis Lázaro-Galilea

Dr. Juan Martinez-Romo

Prof. Dr. Susana Borromeo

Prof. Dr. Jorge Portilla

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
