

Special Issue

Smart Bandage Technology for Healthcare

Message from the Guest Editors

The aim of this Special Issue is to collect recent advances in smart bandage technologies for healthcare. We welcome all original, unpublished work in both paper and letter format, as well as review articles, addressing research in smart bandage technologies. Topics of interest include, but are not limited to, the following:

- Smart sensors, power supply and communications for smart bandages;
- Smart textiles, e-textiles, wearable electronics, flexible electronics, energy harvesting research related to smart bandages;
- Smart bandage fabrication, assembly and manufacturing methods, system integration;
- Sensors of use in smart bandages;
- Actuators for wound healing, stimulation, and wound hygiene management .
- Smart systems for wound management and wound condition modelling;
- Internet of Things advances relevant to smart bandages;
- Battery-free smart bandage systems and wireless systems for smart bandages;
- Active, passive, and interactive dressings for smart bandages;
- Smart bandage system integration and advanced fabrication methods to realise smart bandages.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
