

Special Issue

State-of-the-Art Sensor Technology in China

Message from the Guest Editors

The aim of this Special Issue is to provide a comprehensive survey on state-of-the-art sensor technology in China. Research articles are solicited which correlate findings in the design of novel optical, magnetic, electronic, and electrochemical devices for detection of the presence of chemicals or changes in physical properties. The Special Issue will publish full research/review papers addressing the above topics. This special issue is focused more on Sensors. Papers focus on sensors may choose our [joint Special Issue](#) in *Biosensors* (ISSN 2079-6374, IF 3.240).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
