

## Special Issue

# Applications and Systems for Educational Based Sensors

### Message from the Guest Editors

Smart Learning is a teaching and learning approach in conjunction with ultra-technical spaces. These physical and technological spaces are called Smart Classrooms, where methods and techniques related to Big Data, Machine Learning, Artificial Intelligence, and the Internet of Things converge to education improvement. Smart Classrooms as intelligent entities allow new forms of teaching-learning while shaping learning spaces through technology: photosensitive sensors can automatically regulate light according to the type of learning activity or the distribution of classroom furniture after analyzing students' interactions captured by cameras. This Special Issue aims to gather review articles (research articles are welcome) on pedagogical theories and practices, technologies, solutions, applications, and new (or unsolved) challenges in Teaching and Learning in Smart Classrooms. Both qualitative and quantitative review articles are accepted and might consider a referenced methodology to answer mapping and research questions.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di  
Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
