

Special Issue

Security and Privacy Preservation in Cyber–Physical Systems

Message from the Guest Editors

This Special Issue seeks to present cutting-edge research and practices that address these pressing challenges. It welcomes both comprehensive literature reviews and innovative technical contributions that propose novel methods, technologies, processes, and tools for enhancing CPS security and privacy

- security in CPSs
- privacy-preserving techniques
- IoT security, cloud-based smart security systems
- smart grid security
- attack detection and mitigation
- secured system management
- smart healthcare security and privacy
- AI-driven cybersecurity solutions

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief
