

Special Issue

Applied Robotics in Mechatronics and Automation

Message from the Guest Editor

Mechatronics and automation technologies significantly rely on the use of sensors, which play a pivotal role in collecting data, enabling precise control, ensuring the safety and efficiency of robotic systems, as well as enhancing the perception, navigation, and interaction capabilities of robots and mechatronic systems. This Special Issue of *Sensors* titled 'Applied Robotics in Mechatronics and Automation' invites submissions of research articles that focus on the intersection of robotics, mechatronics and automation, highlight the recent advancements in their theoretical as well as practical applications, thereby underscoring the importance of applied robotics and automation technologies in the digital future. Potential topics include, but are not limited to, robotics, mechatronics, automation, artificial intelligence, sensing technologies, human-machine interaction, industrial applications, autonomous systems, control systems, and machine learning.

Guest Editor

Prof. Dr. Yueh-Jaw (YJ) Lin

Mechanical Engineering Department, College of Engineering and Engineering Technology, Northern Illinois University, DeKalb, IL, USA

Deadline for manuscript submissions

30 January 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
