

## Special Issue

# Terahertz Sensing and Imaging Technologies

### Message from the Guest Editor

Developments in the field of THz sensing and imaging have been boosted by the evolution of electronic and photonic technologies. In order to support the translation of terahertz technology from the laboratory to industry, I wish to showcase the already available sensing and imaging applications towards implementation of THz sensing and imaging systems. THz sensing and imaging have advanced in terms of performance, complexity, spectroscopy, resolution, and speed. This Special Issue will focus on these advances, especially considering industrial, biomedical and real-life applications. The Special Issue invites submissions in the areas of sensor and imaging devices, systems, and methodologies. Breakthrough approaches to terahertz sensing are particularly encouraged.

### Guest Editor

Prof. Dr. Viktor Krozer

Department of Physics, Goethe University of Frankfurt am Main, Max von Laue Strasse 1, 60438 Frankfurt, Germany

### Deadline for manuscript submissions

closed (30 July 2020)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
