

## Special Issue

# Terahertz Imaging, Sensing and Communications Technologies

### Message from the Guest Editor

Novel approaches dedicated to real-world applications of THz wave photonics have become the frontier in the THz research community. The upcoming Special Issue of *Sensors*, entitled “THz Imaging, Sensing and Communications Technologies”, will highlight the most recent achievements in THz science and technology with a special focus on, but not limited to, the research and development of novel THz sources, new THz sensing methods, advanced THz imaging techniques, as well as THz communications technology. Both reviews and original research articles are welcome. We are looking forward to your active participation in this Special Issue. **Keywords**

- THz wave photonics
- THz sources
- THz sensors
- THz imaging systems
- THz communications
- nonlinear THz spectroscopy

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
