

## Special Issue

# Textile-Based Sensors: E-textiles, Devices, and Integrated Systems

### Message from the Guest Editors

The aim of this Special Issue is to bring together innovative developments in a broad spectrum of sensors that utilizes textiles as wearable substrates or as an active component of the devices. Both review articles and original research papers are solicited. There is particular interest in papers envisioning innovative sensor applications that have not been possible with conventional rigid materials and form factors.

- E-textiles
- Smart textiles
- Materials and coatings for functional fibers
- Printed electronics/sensors
- Electronic yarns and novel fabric materials
- Technology transfer from fibers to the garment
- Sensor hardware system integration
- Packaging, wearability and user-acceptance
- Reliability, washability and durability
- Energy harvesting and power storage
- Hardware and software co-design
- Wearable healthcare prototypes and applications
- Rehabilitation, sensory monitoring and injury prevention
- Applications to fashion industries
- Internet of Things
- System energy/power management

### Guest Editors

Dr. Hyun-Joong Chung

Department of Chemical and Materials Engineering, Faculty of Engineering, University of Alberta, Edmonton, AB T6G 1H9, Canada

Dr. Patricia Dolez

Assistant Professor, Department of Human Ecology, Faculty of Agriculture, Life, Environmental Sciences, Edmonton, AB, Canada

### Deadline for manuscript submissions

closed (31 July 2021)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
