

## Special Issue

# Time-Sensitive Networks for Unmanned Aircraft Systems

### Message from the Guest Editors

The focus of this Special Issue will be on dealing with requirements, challenges, constraints, theoretical issues, innovative applications, and experimental results with a time-sensitive network of UASs. Topics of interest include but are not limited to:

- Low latency, highly reliable communication systems for unmanned aircraft systems (UASs);
- Positioning, navigation and timing for time-sensitive UAS networks;
- Time-sensitive guidance and control for UAS;
- Time synchronization for time-sensitive UAS networks;
- Reliable transmission with bounded delay over time-sensitive UAS networks;
- Resource management for time-sensitive UAS networks;
- Time-sensitive UAV network in 5G and beyond cellular communication systems;
- Theoretical analysis and models on time-sensitive UAS networks;
- Security and privacy issues over time-sensitive UAS networks;
- Empirical results of time-sensitive UAS network testbeds.

---

### Guest Editors

Prof. Dr. Hwangnam Kim

School of Electrical Engineering, Korea University, Seoul 02841, Korea

Dr. Yong Wun Jung

Principal Researcher, Unmanned Vehicle Advanced Research Center, Korea Aerospace Research Institute, Daejeon, Korea

Dr. Honghai Zhang

Senior Software Engineer, Google Inc., USA

---

### Deadline for manuscript submissions

closed (30 April 2021)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
