

## Special Issue

# UAV Lidar System: Performance Assessment and Application

### Message from the Guest Editor

The current Special Issue “*UAV Lidar System: Performance Assessment and Application*” invites researchers to submit papers discussing the system design (including platform, positioning unit, sensors etc.), performance assessment (even through specific analysis or particular applications), application analysis (fulfilling application requirements), and data processing (engineering products derived from UAV LiDAR point cloud, segmentation/classification solutions) related to UAV LiDAR.

### Guest Editor

Dr. Tamás Lovas

Department of Photogrammetry and Geoinformatics, Budapest  
University of Technology and Economics, H-1111 Budapest, Hungary

### Deadline for manuscript submissions

closed (30 November 2022)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
