

Special Issue

Applications of Biomedical Imaging and Sensing Technologies in Disease Diagnosis

Message from the Guest Editor

We cordially invite you to submit your valuable research articles for consideration to our Special Issue on "Applications of Biomedical Imaging and Sensing Technologies in Disease Diagnosis". This Special Issue intends to provide a platform for researchers, scientists, and medical professionals to share their findings, exchange knowledge, and engage in discussions regarding the integration of biomedical imaging in disease diagnosis. We welcome submissions that contribute to the advancement of this field, including but not limited to topics such as the utilization of magnetic resonance imaging (MRI), computed tomography (CT), ultrasound, positron emission tomography (PET), and optical imaging techniques in disease diagnosis. Research articles focusing on the development of novel sensors and imaging methods, implementation of artificial intelligence algorithms, and the utilization of big data analytics for disease diagnosis are highly encouraged. For more information, please visit: mdpi.com/si/187953

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
