

Special Issue

Ubiquitous Sensing and Intelligent Systems

Message from the Guest Editor

Nowadays, there are two trends that are becoming pervasive: sensing and intelligence. The undertakings that are being pursued that involve both a ubiquitous source of data and an intelligent system constitute an immense source of advancement and achievements.

Researchers can find in this Special Issue a venue for presenting both theoretical and practical approaches allowing the presentation and discussion of innovative solutions by addressing a number of open challenges. Topics of interest include, but are not limited to:

- Intelligent systems based on ubiquitous sensors
- Privacy issues in sensor-based systems
- Sensor fusion for decision support, prognostics, and diagnostics
- Fairness, accountability, and transparency in sensor-based intelligent systems
- Visualization approaches
- Preprocessing, feature engineering, and data reduction
- Data-driven approaches
- Remote sensing; Biosensing
- Pattern recognition
- Big data; IoT
- High-tech agriculture
- Industrial applications; Health applications
- Transformative research

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
