Securing E-Health Data Across IoT and Wearable Sensor Networks

Message from the Guest Editor

We welcome submissions of any innovative research work covering a broad variety of subjects, including (but not limited to) the following:

- The use of blockchain and federated learning in eHealth and mHealth platforms
 - Self-health monitoring systems, including deep learning and machine learning models and applications to wearable sensing devices
 - Handling big health data using a blockchain system
 - Different frameworks and tools to improve privacy and security in the healthcare domain
- Smart mobile technologies, Internet of Medical Things (IoMT), and sensor networks for physiological signal monitoring.

Guest Editor

Dr. Ashraf Uddin

Centre for Cyber Security Research and Innovation, Deakin University,
Geelong, Australia

Deadline for manuscript submissions

25 October 2025

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
