

Special Issue

Advanced Sensing for Surgical Robots and Devices

Message from the Guest Editor

This Special Issue will collect current studies on advanced sensor developments in the field of robot-assisted surgeries, including discussions around tactile and positional sensing and the use of soft materials.

Keywords

- surgical robotics
- surgical devices
- image-guided therapy
- soft robotic sensing

Guest Editor

Dr. Rui Li

Department of Mechanical and Aerospace Engineering, New York University, Brooklyn, New York, NY, USA

Deadline for manuscript submissions

25 July 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
