# VOICE Sensors with Deep Learning

## Message from the Guest Editor

Deep Learning triggering sensor technologies, especially as relates to the VOICE issue. A person goes through a speaking and listening process that repeats verbal, physiological, and acoustic steps for communication. Voice technology utilizing a range of sensor technologies using biosignals that are measurable in these human voice activities has developed rapidly in recent years. In particular, with the development of voice recognition technology based on artificial intelligence and deep learning, the related market has expanded and is being released into various services. Many sensor issues need to be exploited.

### **Guest Editor**

Prof. Dr. Wookey Lee

Professor & Director of VOICE AI research institute, Inha University, Incheon 22212, Republic of Korea

### Deadline for manuscript submissions

closed (30 June 2023)

# **About the Journal**

## Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

#### Editor-in-Chief

#### Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

## **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
