

## Special Issue

# Blockchain-Based Security System Applied to IoT Used in Intelligent Systems

### Message from the Guest Editors

This Special Issue invites contributions on the following topics (but is not limited to them):

- the scalability and performance optimization of blockchain technology, including cross-chain and off-chain channels, sharding, optimization consensus algorithms, etc,
- the integration and innovation of blockchain technology with the Internet of Things, metaverse, artificial intelligence, etc,
- the application and challenges of blockchain and the Internet of Things in green power systems, including green certification, green power traceability, and trading,
- application of the blockchain and Internet of Things in the fields of intelligent medicine and sports health,
- integration and application of the blockchain in smart transportation Internet of Things systems,
- the challenges faced by intelligent supply chain management in the blockchain and Internet of things,
- application of the blockchain and Internet of Things in smart city development,
- application of the blockchain in the industrial Internet of Things and blockchain-based smart contracts in the Internet of Things, and Internet of Things in energy smart management systems.

### Guest Editors

Dr. Yongjun Ren

School of Computer Science and Technology, Zhejiang Gongshang University, Hangzhou 310018, China

Prof. Dr. Hu Xiong

School of Information and Software Engineering, University of Electronic Science and Technology of China, Chengdu, China

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
