

## Special Issue

# Sensors and Geophysical Electromagnetics

### Message from the Guest Editors

Recently, we have seen growing interest in geophysical electromagnetic exploration equipment and technologies, which offer new opportunities for geophysical exploration through advanced numerical simulation and inversion optimization methods, as well as sensing equipment manufacturing technologies. These technologies will support the development of airborne electromagnetic, satellite electromagnetic, marine electromagnetic, magnetotelluric and borehole electromagnetic technologies, and so on, and lay a solid foundation for multi-space exploration of Earth. Therefore, this Special Issue aims to collect original research and review articles on the latest progress, technology, solutions, applications, and new challenges in the electromagnetic field of geophysical exploration. Potential topics include but are not limited to:

- sensors
- electromagnetic method
- geo-exploration equipment
- optimization inversion method

---

### Guest Editors

Prof. Dr. Yunhe Liu  
Dr. Bo Zhang  
Dr. Xiuyan Ren

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
