

Special Issue

Selected papers from WISA 2019

Message from the Guest Editor

WISA is one of the main security research venues hosted by the Korea Institute of Information Security and Cryptology (KIISC) and sponsored by the Ministry of Science, ICT and Future Planning (MSIP), and co-sponsored by the Electronics and Telecommunications Research Institute (ETRI), the Korea Internet and Security Agency (KISA), and the National Security Research Institute (NSRI). In 2019, WISA will celebrate its 20th anniversary while moving toward its new position as the best contributor to information security applications. The primary focus of WISA 2019 will be on systems and network security including all other technical and practical aspects of security applications. This Special Issue will include extended versions of selected papers from WISA 2019, along with general papers closely related to the conference themes

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
