Selected Papers from the International Conference on Water Security and Management (WSM 2020)

Message from the Guest Editors

The International Conference on Water Security and Management (WSM 2020), which is organized by the Asia Pacific Institute of Science and Engineering (APISE), is a virtual conference on 4 December 2020. In the conference, new research and technologies in the field of water security management will be shared among scientists and students from around the world. This Special Issue is expected to select conference extension papers, with a substantially different title and an abstract, and added with new materials from the conference presentation. About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
