

## Special Issue

# Wireless Sensor Networks in Smart Grid Communications

### Message from the Guest Editors

The smart grid is an emerging technology that is supporting significant changes in economies and social networks worldwide. In the energy sector, various regional and state grid systems have begun the transformation from being consumers of electricity to producing, sharing, and storing energy by deploying smart grid infrastructure. However, due to often remote and extreme conditions, in smart grids, cybersecurity and resilience are two of the many challenges in leveraging energy grids. Considering hackers' recent attacks on energy grids and the distributed structure of these systems, the use of traditional means of computer protection and searching for crimes becomes more difficult or insufficient. Luckily, with the aid of state-of-the-art cybersecurity technologies and resilient systems, we can produce a feasible scheme to ensure the security of smart grids from the source. Hence, there is a need to study and design new cybersecurity technologies and resilient systems for smart grids.

### Guest Editors

Dr. Yuanfang Chen

Dr. Muhammad Alam

Prof. Dr. Xiaohua Xu

Prof. Dr. Sardar M.N. Islam

Dr. Qihua Zheng

Dr. Jia Liu

### Deadline for manuscript submissions

closed (20 July 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di  
Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
