

Special Issue

Wearable Sensors for Human Movement

Message from the Guest Editor

This Special Issue aims to explore original developments and the use of wearable sensors to assess and monitor human movement in both clinical and sport applications. Submissions should address the use of sensors for health and sport performance, which might include but is not limited to the following topics:

- Wearables for human movement
- Wearable motion sensors
- Wearable pressure sensors
- Wearable sensors
- Wearable for rehabilitation
- Textile sensors for human movement
- Smartphones motion sensors
- Smartphones for human movement

Guest Editor

Dr. Oren Tirosh

School of Health Sciences, Swinburne University of Technology,
Melbourne, Australia

Deadline for manuscript submissions

closed (15 August 2023)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
