Wearable Sensors for Movement Analysis

Message from the Guest Editors

As the journal *Sensors* celebrates its 20th year, and as we mark what may be the sixth decade of wearables for the study of movement, we invite you to take part in this celebration by submitting manuscripts for a Special Issue devoted to “Wearables for Movement Analysis”. Papers from a wide variety of perspectives that will help to advance the field are invited. For more information or questions about the fit of a potential manuscript, please e-mail us. **Keywords:**

- accelerometers
- inertial measurement units
- gait
- balance
- mobility
- postural transitions
- aging
- falls
- validation
- EMG
- ECG
- fNIRS
- EEG

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
