

## Special Issue

# Advanced Technologies for Wireless Communication and Sensing Applications

### Message from the Guest Editor

This Special Issue encourages authors from academia and industry to submit manuscripts on novel technologies for wireless communication and sensing scenarios. The Special Issue topics include but are not limited to:

- Cloud-edge technologies for distributed sensor applications;
- mm-Wave, sub-THz and THz radio technologies for advanced wireless communication and sensor networks;
- Applications of wireless communication and sensor processing in smart spaces, smart living and Industry 4.0 scenarios;
- Radio-access technologies for low-latency and high-reliability wireless sensor networks for industrial applications;
- Beyond 5G (B5G) technologies for radio communication and sensing networks;
- Multi-spectral and multi-domain processing techniques for robust wireless sensor systems;
- Green communication and computing for Beyond 5G (B5G) networks;
- Novel sensor technologies for energy-aware distributed wireless devices;
- Machine and deep learning technologies for wireless communication and sensing applications.

---

### Guest Editor

Dr. Vittorio Rampa

Institute of Electronics, Computer and Telecommunication Engineering (IEIT) of the National Council of Research (CNR), c/o, Politecnico di Milano, Piazza Leonardo da Vinci 32, I-20133 Milano, Italy

---

### Deadline for manuscript submissions

closed (20 March 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
