

## Special Issue

# Nano/Micro-Structured Materials for Gas Sensor

### Message from the Guest Editor

The Special Issue "Nano/Micro-structured Materials for Gas Sensor" aims to provide a comprehensive platform for the dissemination of cutting-edge research on the development and application of nano/micro-structured materials for gas sensing technologies. The utilization of advanced nano/micro-structured materials has shown great promise in enhancing the sensitivity, selectivity, and response time of gas sensors, thereby addressing critical challenges in environmental monitoring, industrial safety, and healthcare diagnostics. This Special Issue welcomes contributions covering a wide range of topics, including, but not limited to, the following: Synthesis and characterization of nano/micro-structured materials for gas sensing applications.

Advanced fabrication techniques for nanostructured gas sensor devices.

Integration of nanostructured materials into functional gas sensors.

Applications of nanostructured gas sensors in environmental monitoring, industrial safety, and medical diagnostics. For more details, please visit [here](#).

---

### Guest Editor

Dr. Deepak Rajaram Patil

School of Materials Science and Engineering, Yeungnam University,  
Gyeongsan 38541, Republic of Korea

---

### Deadline for manuscript submissions

25 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
