

## Special Issue

# Advanced Intelligent Sensing for Building Monitoring

### Message from the Guest Editors

The increasing demand for smart, energy-efficient buildings has led to the development of advanced monitoring systems that can ensure structural integrity, optimize energy consumption, and maintain environmental comfort. Intelligent sensing technologies have emerged as a viable solution, offering a cost-effective real-time data collection and analysis method. However, the challenge lies in ensuring the reliability of the vast amounts of data these sensors generate, particularly when dealing with the uncertainties and noise inherent in real-world environments. This Special Issue titled "Advanced Intelligent Sensing for Building Monitoring" focuses on the latest advancements in sensor technology and intelligent systems designed to enhance the monitoring and management of building environments. As buildings become increasingly complex and connected, the need for sophisticated sensing solutions has grown. For detailed information, please visit [here](#).

### Guest Editors

Dr. Seyyedbehraad Emadi

Department of Civil Engineering, University of Salerno, Via Giovanni Paolo II, 132 Università degli studi di Salerno, 84084 Salerno, Italy

Dr. Komarizadehasi Seyedmilad

Department of Civil and Environment Engineering, Universitat Politècnica de Catalunya, BarcelonaTech. C/Jordi Girona 1-3, 08034 Barcelona, Spain

### Deadline for manuscript submissions

closed (1 April 2025)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
