

Special Issue

Artificial Intelligence for Medical Sensing

Message from the Guest Editors

In the domain of contemporary medical research, a multitude of biomedical sensors, including ultrasound, chemical analysis, biomaterial, fluid flow, and MRI sensors, have emerged. These sensors are evolving in tandem with cutting-edge time-series data analytics and signal processing techniques. Simultaneously, AI has garnered widespread recognition for its prowess in processing sensor data. Its application range includes disease diagnostics, prognostics, and neurotechnology management for rehabilitation, precision health, treatment strategies, and patient care.

The primary objective of this Special Issue is to present a range of diverse yet complementary contributions that showcase the latest advancements and applications of AI in harnessing the predictive potential of medical sensor data. Moreover, this Special Issue will explore avenues for enhancing the interpretability and explainability of AI-generated insights derived from medical sensor data to ensure that these advanced technologies not only deliver precise predictions but also offer comprehensible and valuable insights to medical professionals and patients alike.

Guest Editors

Dr. Xiaoli Li

Machine Intellection Department, Institute for Infocomm Research, Singapore 138632, Singapore

Dr. Emadeldeen Eldele

Scientist, Centre of Frontier AI Research (CFAR), A*STAR, Singapore

Deadline for manuscript submissions

15 March 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
