

## Special Issue

# Wearable Sensors and IoT Devices Applied in Daily Life

### Message from the Guest Editors

The Internet of Things (IoT), sensors networks and wearables are already everywhere, transforming our lives, even when we are not totally aware that the device that we are using is part of the IoT ecosystem. Home automation, eHealth, disaster management, security systems, smart cars, process automation, and farming are only some of the common domains that have definitively changed with the use and application of these technologies. These technologies are revolutionizing some aspects of our lives; they have created an unprecedented network, which is connecting devices, individuals, data and services; meanwhile, they have brought previously unseen challenges. In this Special Issue, we invite original research papers aiming to promote novel and innovative applications and services that take advantage of IoT technologies to solve or improve activities of daily living in any domain. We are also interested in investigations of the impact of these IoT-based services in different aspects of our daily life, such as wellbeing, social relationships, workability, leisure and sustainability.

### Guest Editors

Dr. Maria Fernanda Cabrera-Umpiérrez

Dr. Maria Teresa Arredondo Waldmeyer

Dr. Patricia Abril Jiménez

### Deadline for manuscript submissions

closed (29 February 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
