

Special Issue

Acoustic Sensing and Monitoring in Urban and Natural Environments (2nd Edition)

Message from the Guest Editor

The aim of this Special Issue is to gather experts actively working in different fields of acoustic phenomena, such as sensing and monitoring techniques in either urban or natural environments, to share their research work in the form of original papers or reviews to expand our knowledge on noise pollution. Contributions focusing on, but not limited to, the following topics are welcome:

- Noise source identification and sound source location.
- IoT-enabled acoustic sensing platforms.
- Distributed acoustic sensing for urban subsurface/surface monitoring.
- Wireless acoustic sensor networks.
- Urban sound landscape and its corresponding noise identification.
- Time series of eco-acoustic indices.
- Monitoring of different types of noise, including wheel-rail noise, environmental noise, airborne noise, architectural acoustics, and vehicle noise.
- Noise in natural environments, including earth surfaces and marine/submarine locations.
- Sensor location distribution.
- New methods for acoustic data processing based on AI approaches.

Guest Editor

Dr. Hector Eduardo Roman

Department of Physics, University of Milano-Bicocca, Piazza della Scienza 3, 20126 Milano, Italy

Deadline for manuscript submissions

1 October 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
