

Special Issue

Ultrasonic Sensing and Photogrammetry for Non-destructive Testing

Message from the Guest Editors

We would like to present a call for papers for the launch of a Special Issue of *Sensors* devoted to "Ultrasonics and Photogrammetry for Non-destructive Testing". We invite studies concerning the development of new methodologies for non-destructive analysis, including techniques based on sensors, ultrasounds, photogrammetry, IR imaging, thermal texturing and laser scanning—both long and short range—and their applications in biology, medicine, heritage, earth surveying and construction. Multidisciplinary approaches in which several non-invasive techniques are used in a combined and complementary way for the resolution of problems in different fields are also welcome.

Guest Editors

Prof. Dr. Juan V. Sánchez-Pérez

Dr. Fernando Buchón Moragues

Prof. Dr. Jose Maria Bravo

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
