

Special Issue

Sustainable Intelligent and Connected Transportation

Message from the Guest Editor

Intelligent transportation systems (ITSs) provide leading-edge information and communication technologies used in transportation and traffic management systems to improve the safety, efficiency, and sustainability of transportation networks; reduce traffic congestion; and enhance drivers' experiences. With the ITS playing an important role in our daily life, academics and industry are increasingly focusing on intelligent transportation systems (ITSs) to improve the performance of transportation systems.

This Special Issue aims to collate original research and review articles that discuss sustainable mobility in alternative transport systems. Potential topics include (but are not limited to) the following:

- connected technologies and autonomous driving;
- the integration of vehicle communication;
- sensor technologies for intelligent transportation systems;
- IoT in shared mobility routings;
- sustainable and smart transport solutions;
- transport and traffic safety challenges.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
