

Special Issue

Dielectric Spectroscopy Sensors

Message from the Guest Editor

We cordially invite you to contribute to the special issue on dielectric spectroscopy sensors. Since its inception over 100 years ago, dielectric spectroscopy has found numerous applications from biomedical sciences to material science. Developing sensor systems for unmet needs in engineering sciences and understanding the polarization of materials to deduce dielectric relaxation mechanisms are compelling problems for many investigators. We solicit original research papers and review articles in the special issue. This special issue aims to highlight the recent advances in the theory and the practice of dielectric spectroscopy.

Guest Editor

Dr. Ahmet Can Sabuncu

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
