

## Special Issue

# Acoustic Source Localization in Wireless Sensor Networks

### Message from the Guest Editors

This Special Issue aims at collecting high-quality research papers and review articles focusing on recent advances in techniques, architectures, prototypes, applications, and evaluations of wireless acoustic source localization. Original, high quality contributions that have not been published before and are not currently under review by other journals or conferences are sought.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
