

Special Issue

Towards Adversarial Machine Learning and Defenses in Sensors Applications

Message from the Guest Editor

This Special Issue aims to provide a forum for individuals from academia and industry to present their novel ideas in the field of adversarial machine learning, GANs, adversarial examples, adversarial defenses, image anonymity, and image forensics. The anticipated research should be industry and application-oriented to handle important issues. The topics include but are not limited to: Image/Video/Signal processing Pattern recognition Computer vision GANs based model for image processing Sensors applications Sensing techniques Design of new adversarial examples Design and development of defense against adversarial examples Transferability of adversarial examples Robust models against biometric verification attacks Theoretical models and analysis for adversarial attacks Optimization techniques to train models Multimodal adversarial attacks and defenses For more information on the issue, please access the website at: <https://www.mdpi.com/si/90328>

Guest Editor

Dr. Irfan Mehmood

Department of Media Design and Technology Faculty of Engineering and Informatics University of Bradford, Bradford, UK

Deadline for manuscript submissions

closed (30 April 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
