

Special Issue

Sensor Fusion for Precision Agriculture

Message from the Guest Editors

Precision agriculture pursues the management of spatial and temporal variability of farm land, and plant and animal growth, and expands the area to protected horticulture and livestock production, as well as open fields. Recently, the sensors have become extensively fused and applied for various purposes, with the adoption of ICT and artificial intelligence. This Special Issue addresses the recent development and application of sensors in precision agriculture.

Guest Editors

Prof. Dr. Sun-Ok Chung

Department of Biosystems Machinery Engineering, Chungnam National University, Daejeon 34134, Korea

Prof. Dr. Minzan Li

Research Center for Precision Agriculture, China Agricultural University, Beijing 100083, China

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
