

Special Issue

Machine Learning and Data Analytics for Edge Cloud Computing

Message from the Guest Editors

This Special Issue aims to bring together researchers from academia, industry, and government agencies to understand the innovative technologies such as big data analytics, machine learning, and blockchain in the edge cloud paradigm. Submitted papers are expected to employ state-of-the-art and novel approaches to cover solutions for the edge cloud related to cost-effectiveness, sustainability problems, and other challenges.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
