Special Issue

Energy Efficiency and Intelligent Signal Processing for Wireless Sensing

Message from the Guest Editor

The objective of this special issue is to provide high quality research results on energy efficiency and intelligent signal processing for wireless sensing. Research articles with totally new results or comprehensive review are solicited which will provide a consolidated state-of-the-art in this areas. The full research, review, corresponding applications and high rated manuscripts addressing the following topics are encouraged for submission. There are no restrictions on the topics of interest of this special issue.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
