

Special Issue

Advances in Functional Nanocomposite Materials for Bioapplications

Message from the Guest Editors

The aim of this Special Issue, “**Advances in Functional Nanocomposite Materials for Bioapplications**” is to invite researchers and scholars to submit original research and review articles focusing on current developments, challenges, and solutions unleashing the potential of functional nanocomposites. This research theme is proposed to address new innovative synthesis protocols of functional nanomaterials, their structures, and functional relationship, as well as harness them to viable and state-of-the-art bioapplications. Potential research topics include, but are not limited to, the following:

- Synthesis of functional biocompatible organic/inorganic nanocomposites;
- Structure–property relationship of biocompatible nanocomposites;
- Nanocomposites for antibacterial/wound dressing applications;
- Nanocomposites for imaging-guided drug delivery;
- Nanocomposite-based sensors for advanced screening or medical diagnostics;
- Nanocomposites for microfluidics and wearable sensors;
- Multifunctional biodegradable nanocomposites for tissue engineering;
- Nanocomposite for therapeutic drug monitoring and in vivo imaging.

Guest Editors

Prof. Dr. Muhammad Zubair Iqbal

Dr. Sadia Zafar Bajwa

Dr. Ozioma Akakuru

Deadline for manuscript submissions

closed (31 December 2023)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
