

# Special Issue

## AI for Smart Home Automation

### Message from the Guest Editor

In recent years, the home automation industry has evolved hand in hand with the advancement of the information society. The development of artificial intelligence has favored the emergence of new paradigms, with beneficial effects on various sectors of automation, including home automation, which has developed to become increasingly smart. This special issue aims to collect innovative contributions in the field of artificial intelligence applied to home automation, with the aim of encouraging the development of an increasingly intelligent, efficient and energy-conscious home.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
