

Special Issue

Image Processing and Pattern Recognition Based on Deep Learning

Message from the Guest Editors

The aim of this Special Issue is to publish original research contributions concerning new neural-network-based approaches to image processing and pattern recognition with direct application in different domains, such as remote sensing, crop monitoring, boarding monitoring, system support in medical diagnosis, emotion detection, etc. The scope of this Special Issue includes (but is not limited to) the following research areas concerning image processing and pattern recognition aided by new artificial intelligence techniques:

- Image processing;
- Pattern recognition;
- Image segmentation;
- Object classification;
- Neural networks;
- Deep learning;
- Decision fusion;
- Systems based on multiple neural networks;
- Detection of region of interest from remote images;
- Industry applications;
- Precision agriculture application ;
- Medical application;
- Monitoring of protected areas;
- Disaster monitoring and assessment.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
